

Jungbrunnen 66-00

ULTIMATE - Series

BestWater 

Technical specifications Jungbrunnen 66-00 ULTIMATE*

Height x width x depth	410 mm x 310 mm x 463 mm
Weight without water	ca. 11 kg
Water connection	3/4"
Wastewater connection	Drain hose
Water production in 24 hours	300 liters
Wasserproduktion pro Minute	0,2 liters
Water production per minute	1 : 2
Raw water requirement per minute	ca. 0,65 liters

Requirements for tap water

Minimum line pressure	2,5 bar
Maximum line pressure.	7 bar
Water temperature	5 °C - 40,5 °C
pH value	6,5 to 9,5
Iron content	< 0,2 mg/l
Salt content	< 2.000 ppm

Art. Nr.: 021018

* Consumption data may vary from the values stated depending on water pressure, water hardness, water inlet temperature, and room temperature. The values stated above correspond to a flow pressure of 4.0 bar at the water connection.
